

Pursuant to the Article 16 of the Ordinance on the Organisation and Management of the National Top-level Domain (Official Gazette no. 38/2010 and 81/2015), the Managing Council of CARNet, as proposed by the .hr Domain Management Committee on the session held on April 20th 2016, has brought the following

DECISION ON THE PROCEDURE AND CONDITIONS

for registration of domains composed of one or two alphanumeric characters and domains with diacritical characters

1. Domains composed of one or two alphanumeric characters

Domains composed of one or two alphanumeric characters are considered to be domains that contain set of characters composed of digits and letters.

During the implementation of this Decision it will be assumed that the set of two letters "lj", "nj" and "dž" consist of two characters.

.hr domains that consist of one or two alphanumeric characters will be registered solely as the payable domains.

Registration and renewal of domains of this Item shall be carried out as per Price List for Registrars published on the website <http://dns.hr>.

2. Domains with diacritical characters

Domains with the diacritical characters as stated in this Decision shall be considered domains containing characters: č, ć, đ, š and ž.

Domains consisting of diacritical characters shall be registered as payable domains, except in cases when it is referred to domain that provides virtual identity of the legal entities and domains referring to virtual identity of the registered sole traders on the basis of the Articles 19 and 20 of the Ordinance on the Organisation and Management of the National Top-level Domain (Official Gazette no 38/2010 and 81/2015).

3. Domains with one or two alphanumeric characters that also contain diacritical characters

To domains with one or two alphanumeric characters, which at the same time contain diacritical characters, is to be applied rules of the Item 1 of this Decision.

4. General provisions

This documents is applicable on the date of July 4th 2016 at 12.00 hrs and published on the website address <http://dns.hr>.
